

Air Compressors/Generator 30-Gallon

Power this mighty unit with either a 389cc Honda or 404cc Subaru engine, include a cast iron two-stage compressor and an industrial 3500 or 4000-watt generator and you'll have enough electrical power and the ability to power air tools in your shop or in the most remote locations. The 30-gallon storage tank gives you enough air capacity for extra productivity. Whatever your needs, this all-in-one piece of equipment is well worth the investment.

AX-0066 230V outlet option - adds 230V outlet to air compressor/generator

AG2-SR14-30M

Compressor Pump

- Quality cast iron two stage compressor
- Splash lubricated cast iron crankcase to extend the hours of performance
- Cast iron head for heat dissipation
- Large canister intake filter
- Durable stainless-steel braided discharge hose for longer life

Engine

- Honda OHV or Subaru OHC engine

Generator

- Industrial 3500 or 4000-watt generator with four NEMA 5-15R receptacles
- Brushless alternator

Frame

- Powder coated ASME coded 30-gallon receiver tank
- 3/16-inch base plate to reduce vibration
- 14-gauge powder coated two-piece belt guard with 1/4-turn release for quick access to belts

Components

- Belt tightening system pulls engine straight to ensure constant belt alignment
- Regulator and two gauges for tank and outlet pressure
- 16.5-inch fly wheel for extra cooling and longer life
- Manual drain valves for proper maintenance
- Quality pilot valve unloader
